Attachment Ring

Keeping drinks warm

The *Incense Burner* can also be used as a warmer for drinks. The attachment ring is used for this. It is placed on the *Incense Burner* with the straight side facing up. Then cups, mugs and even pots can be kept warm on the warmer.

The attachment ring can be cleaned by hand with detergent or in the dishwasher. The attachment ring becomes hot during operation and there is a risk of burns. Please use heat protection gloves.

Attachment Ring Granicum®

∅ 10.5 cm | H 1.5 cm | 0.3 kg
